### CAN'T BE SEPARATED

Some Redwood City Have Learned How to Get Rid of Both Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache. If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

Captain N. Nason, retired, of 3528 Twenty-second street, San Francisco, says: "I am not certain whether a fall I met with some seven years ago was the primary cause of my backache or not, but I noticed from then on I was subject to attacks. Knowing that my kidneys were either sluggish or over excited it struck me if Doan's Kidney Pills were for those organs alone they might help me to ride over a rather severe attack of backache, and I took them. They stopped the aching. I will be pleased to recommend Doan's Kidney Pills when opportunities present themselves."

## EMBRACE IT

Redwood City's opportunity for advancement is at hand and if she embraces it no town in the whole peninsula will go forward with such leaps and bounds. None but our own people can stop this progress. During the past week a manufacturer from San Francisco went over the water front of this city and agreed to establish an industrial plant at the salt works provided a spur track could be built along Chestnut street to the proposed plant to connect with the Southern Pacific railroad. The same spur track that the Stauffer Chemical Company wanted is the one desired by the new comers. The Stauffer Chemical Company is still desirous of locating here if the City Council grants the spur-track privileges. Another manufacturing concern will also locate here if the privilege can be obtained. The concerns when located here will give employment to upwards of five hundred men. This certainly would mean a great deal to Redwood City. Its growth would be phenomenal and would be the most prosperous town in the State. The Town Council refused the Stauffer Chemical Company a franchise for the spur track some time ago. It is to be hoped it can now see its way clear to grant this franchise in view of the fact that other concerns may use it. The members of the board are honest in their convictions and mean to do right, but they should take into consideration the vast benefits the concern would bring to the people. It would be a serious mistake to keep them out. Redwood City's opportunity has arrived. Will the Town Council cast it aside or embrace it?

TEDDY BEAR NOVELTY.

Instead of the ordinary stuffing the electric Teddy bear has inside of it a little storage battery with wires running to the little lamps that serve as the bear's eyes and also one of the bear's paws, within which is contained the switch by which the current is turned on. The eyes glow only when the pressure on the paw is continued, shutting off automatically when the pressure is released, and as it is not supposed that anybody would want to sit and squeeze the bear's paw continuously it is calculated that the battery will furnish current enough for some hundreds of flashes and that it will last for from two to four months.

The electric Teddy bears, which are made in various sizes and also in various colors, as cinnamon, polar and black, are supplied with eyes white and red and green, and by buying extra eyes one can have a bear with eyes of one color in the morning, another color in the afternoon and still another color at night, for the tiny lamps that form the electric bear's eyes screw into sockets, like any other incandescent lamp, and you can unscrew the white eyes and screw in red ones if you want to. And when the storage battery is exhausted it can be taken out and a fresh one put in its place.

CLAW POLISHING PARLOR.

**Cleveland Society Women Will Have  
Their Pet Cats Manicured.**

Society women in Cleveland, O., have decided to establish a manicuring parlor for their pet cats, says a special dispatch to the New York World. One hundred of them, all members of the Cleveland Cat club, met a few nights ago and decided that their pets, upon which they place a high value and some of which have won prizes not only in Cleveland shows but elsewhere, should be given better treatment than is afforded by the limited means in the average home.

### An Experiment In Colonizing.

Greece is overrun with refugees, who flee from their homes and lands in the contiguous states of Roumelia, Bulgaria, Roumania and the Caucasus. These refugees land in Athens and other ports so poor that the Greek government is compelled out of humanity to shelter and feed them. Every steamer which lands passengers in Greece brings a fresh contingent, and the Greek government has hit upon a plan to make permanent citizens of the aliens and put them on their feet as producers.

In order to encourage industry and

part the Greek government has arranged to give land to the refugees, together with means to build and work the soil. Mechanics and tradesmen will be helped to open stores or shops, and there will be grants for churches, schools and public pasturage, in fact the whole equipment of a peasant colony. A bank founded by the government will handle the financial end of the scheme, the refugees paying in annually a sum which will wipe out their debt in thirty years. The bank will be under the control of the Greek ministers of finance, enabling the government to insure justice to all concerned. In this way it is believed that large areas of abandoned lands in Greece may be made productive and the wealth of the nation increased.

## REDWOOD'S OPPORTUNITY

### Chance to Become Great Manufacturing City

#### IT'S FOR COUNCIL TO DECIDE

#### The Time Has Arrived When Our Citizens and Governing Board Should Encourage Outside Capital to Locate Here

A party of manufacturers from San Francisco was here Monday and made a thorough investigation of Redwood City's water front and were highly pleased with this locality. One industrial plant will be established at the salt works at once provided the City Council will grant the franchise for a spur track along the same lines as the one that was asked for by the Stauffer Chemical Company some time ago and was refused the privilege. The concern will start with fifty men but later on will employ several times that number. If the spur track franchise is granted the Stauffer people will also locate there and possibly two or three other manufacturing concerns. It is estimated that when these concerns are in operation they will employ fully 500 men. It is up to the people of Redwood City to say whether or not they want them to come. Let every encouragement be offered, let no stone be unturned to bring them here. It means much to this locality. An application will be made to the City Council very shortly and should it be granted, and we earnestly hope it will, work on the plant will be commenced at once and the plant will be installed at a great expense. This is Redwood City's opportunity to become a great manufacturing center. This City is to be the terminus of the Dumbarton road and with its road water communication with San Francisco it is unquestionably an ideal manufacturing city. This is the time for all to pull together for the benefit of Redwood. Let there be concerted action.

## DROWNED IN SURF NEAR SAN MATEO

#### Cooley vs. Butler

The civil suit of C. P. Cooley against Mrs. Isabel Butler was heard before Judge Buck in the superior court Wednesday. The case has been pending for some time. Mrs. Butler is the owner of 72 acres of valuable land at Ravenswood, a portion of the Cooley ranch. She purchased the land from Frank Cooley for \$16,293 in 1905. Last year she entered into an agreement with C. P. Cooley to sell the property for \$25,000. When the contract was about to expire Cooley tendered her \$5,000 and the balance to be paid in two years, she to hold a mortgage for that sum. Mrs. Butler refused to execute a deed. Mr. Cooley at once instituted the suit to compel her to carry out the contract. At the trial Wednesday she failed to be misinformed by the plaintiff who evidently wanted the land for J. R. Parkinson, the promoter who was to establish a townsite on the property. She was made to believe that it was to be for the Cooleys themselves and no one else. Briefs will be presented by both sides. Rogers, Smith and Thomas of Palo Alto appeared for Cooley while Attorney Hutchinson represented Mrs. Butler. George Smith, who represented his firm, very cleverly and skillfully presented his side of the case.

IN MEMORIAM

To the worthy Matron, Sisters and Brothers of Sequoia Chapter No. 203, O. E. S.

Your committee appointed to draft suitable resolutions in memory of the death of Brother Nathan Graves, who departed this life on Monday June 24, 1907, age 56 years, beg leave to submit the following:

Whereas, in the Providence of God one of the links of our golden chain has fallen away and an active member of our Order has been removed from our busy labors, therefore be it Resolved that in the death of Bro. Graves our order has lost one of its valuable members whose loss will be deeply felt, yet, realizing that all things are under the direction of Him who "doeth all things well," we bow in humble submission to his Will, and trust that as our Brother left the shadowy shores where toil and disappointment render life so feverish and fitful, the Golden Gates were widely open for his entrance into that fuller and more real existence where pain and sickness never come, and where the friendships begun on earth shall be completed, and threads of affection, so rudely broken by death, shall be gathered up and reunited in the glory of divine love. Brother Graves left a fond sister and brother, beside other loving relatives to mourn his loss. To the bereaved one we offer our most sincere sympathy, and commend them to our Heavenly Father, who alone can comfort the bereaved hearts.

Resolved that this preamble and resolutions be inserted in the Redwood City papers, and spread in full upon the minutes of the Chapter, and a copy be furnished to the family.

May Cook, L. P. Behrens, Lila M. Kirkpatrick, Committee.
